

Turbo-MAX CPT 36V

Battery powered cold fogger

- Portable and cordless, operation is independent from power outlets.
- Works with 2x CAS 18V battery packs.
- Pneumatic fogging nozzle, ideal for fog applications both indoor and outdoor.
- Powerful and efficient 36V blower.
- Intelligent motor management provides optimum energy use from the batteries.
- Dual air filter protects internal components and increases the durability.
- Available in 2 versions, with or without detachable handpiece.
- For applications in hygiene (disinfection), crop protection, pest control (PC) and public health (PH), among others.

Technical Data

Fogging solution tank	5 L
Maximum motor power	500 W
Empty weight incl. 2x CAS Li-Power 5,2 Ah	6,6 kg
Maximum flow rate	500 ml/min
Run-time per battery charge (2x CAS Li-Power 5,2 Ah)	30 min
Maximum range	20 m
